

Explore the jungle through the eyes of your main character

1. What do they *see*?
2. What do they *hear*?
3. What can they *smell*?
4. Can they *taste* anything? Fruit on the trees? Sweet water to drink?
5. What do they feel? Is the weather hot or cold? Is there a breeze? Is it dry or humid?
Do they *touch* anything? Rough tree bark? A prickly plant? What does it *feel* like?

Now think about your main character's emotions

1. Do they feel excited, happy, or something else?
2. What kind of place do they think this is?
3. How will their feelings about this place change?
4. How will they change? Will they become braver, happier, more confident?
